### **Intentional Living: Choosing A Life That Matters**

What's Your Story? You have it within your power to make your life a great story, one of significance. Every person can. Regardless of nationality, opportunity, ethnicity, or capacity, each of us can live a life of significance. We can do things that matter and that can make the world a better place.

### **The Resilience Factor**

Life is what happens when we're busy making other plans - just when we think we have it all figured out along comes LIFE. Developing the Resilience Factor helps us learn how to adapt and be flexible without compromising our values. This message proposes the power of a strong core value system and explores the "upside of the downside".

### **Everyone Communicates, Few Connect!**

Only one thing stands between you and success. It isn't experience. It isn't talent.

If you want to succeed you must learn how to connect with people. And while it may seem like some people are just born with it, the fact is anyone can learn how to make every communication an opportunity for a powerful connection!

### **Don't Look Now, Your Strength is Showing: You CAN Change Your Interactions**

We all possess inherent strengths that come as second nature to us. But without learning how to flex our behavior to adapt to the needs of others, those very strengths can become roadblocks on our way to effective relationships! Using the DISC Behavioral Assessment, we can understand the root of communication misfires and increase trust, while establishing rapport and credibility!

### **Sometimes You Win, Sometimes You Learn**

Every one of us has experienced a disappointing loss in our own personal or professional growth. How we have responded has formed us even now. No bad experience has to ultimately defeat us. Every negative event or loss that occurs can become a great learning opportunity to take us all to newer and greater heights in our own lives.
